ZHI CHUN·HIMALAYA & NIGHT OF ZHI CHUN

Mount Qomolangma of the Himalayas is the highest peak in the world. A pure white color palette that is sandwiched between two shades of gray. Drawing from this inspiration, Comfort Workspace has crafted the "ZHI CHUN·HIMALAYA", a special edition of the ERGOHUMAN SE with incredible crocodile-patterned mesh and superb craftsmanship that recreates the unique colors of the highest point on earth in a shiny white-gray choice of color. The word "ZHI CHUN" references the pure Dzi bead, a stone from heaven in Tibetan folklore. This word also signifies the highest level of craftsmanship. The appearance and design of the chair pay tribute to the Himalayas and incorporate impeccable craftsmanship.

Mount Qomolangma actually shows two sides due to the sunlight. The illuminated side is white and gray, while the other side away from light is dark and misty. The "NIGHT OF ZHI CHUN" explores the mysterious aesthetics of darkness. The "ZHI CHUN·HIMALAYA" and "NIGHT OF ZHI CHUN" is the embodiment of the highest peak on earth.

With distinctive appearances, the two models have different product personalities with the following highlights.

ZHI CHUN·HIMALAYA represents sunshine, optimism, positivity, and the pursuit of excellence.

(Limited to **5000** chairs worldwide)

NIGHT OF ZHI CHUN embodies calmness, sophistication, composure, and the prospect of success.

GALSANG FLOWER

The Galsang flower is the most tenacious flower in the Tibetan plateau. Galsang means good times or happiness, thus the Galsang flower is the flower of happiness. We have adopted the Galsang flower motif to tell more stories with our design.
